

INSTRUCTION MANUAL

JUICER - MODEL ES4EA-160001-W3

-**PLEASE** read these instructions carefully before operating this appliance.

IMPORTANT

- This unit is designed to operate on alternative current (A.C.) only.
- DO NOT CONNECT TO DIRECT CURRENT (D.C.)**
- Do not leave unit in operation without an attendant.
- When not in use for long period unplug the appliance.

INSTALLATION AND OPERATION

- Check if voltage of your power system corresponds to the same specified on the appliance label.
- Assembly the Unit Top(Bowl) on the Juicer.
- Place the desired juicer implement on the drive shaft (the large implement for orange and the small for lemon).
- Put the strainer in the juicer cup and position near the outlet of the unit top drain to catch the juice.
- Turn on the appliance switch and place the fruit (orange or lemon cut in half) on the spinning implement and carefully press down.
- To turn off the appliance turn off the switch.

CLEANING PROCEDURE

- Immediately after having been used, to avoid change of juice taste, wash with water the juicer cups, strainer, implement and Unit Top (Bowl).
- Unplug Juicer and clean body and base, using only a damp cloth.
- Never use water jet or immerse appliance in water.
- Wipe off appliance with a dry cloth.

The pictures/drawings are illustrations. All data can be changed without notification.
